

Public Health Scotland, the Office for Rare Conditions in Glasgow, and Genetic Alliance UK are delighted to be hosting...

CARDRISS Engagement Event

Thursday 15th September 2022

5pm-7pm webinar

The CARDRISS (Congenital Conditions and Rare Diseases Registration and Information Service for Scotland) team in Public Health Scotland is working to improve national information on babies with congenital conditions.

This event aims to consolidate engagement with front line clinicians across Scotland and to build awareness of CARDRISS and its benefits.

Programme Includes:

Dr Rachael Wood: *CARDRISS: update on establishing Scotland's national register of babies with congenital conditions*

Mr David Tucker: *EUROCAT and national registries*

Prof. Joan Morris: *Congenital Anomaly Registries : An essential Public Health Resource*
