

17 OCTOBER 2024 2-4 PM DIGITAL CAPABILITIES NETWORK

A network dedicated to digital transformation across Scottish Health, Social Work, Social Care & Housing

Each online discussion brings colleagues from across organisations in Scotland to explore the challenges and opportunities we face in digital transformation. Working in small groups we will explore a series of questions and agree recommendations. A summary report from the meeting will be presented to the Scottish Government/COSLA Digital Capabilities Board and published on the Digital Health and Care website. [Pre-event reading](#)

“AI in Health and Social Care” - What do we need to support our workforce, services and delivery?

- How can we ensure that AI is used safely, securely and ethically.
- What do effective governance structures look like.
- What are some of the ways AI is used in health and social care.
- What do you need to support and improve your understanding of AI in the workplace.

MEETING
THURSDAY 17
OCTOBER
2.00 PM – 4.00 PM
