

TRANSFORMING HEALTH
AND CARE SYSTEMS

THCS Shared Learning Event (WP10)

Edinburgh, Scotland

Venue: [Brodiess LPP, 58 Morrison Street, EH3 8BP, Edinburgh, Scotland, UK](#)

31th October, 2024

09.00-15.30

Harnessing Digital Health: Analysing Economic Impact in Health and Care Systems

This THCS shared learning event, organised by WP10, will explore the different funding models for digital health and how we measure the impact of digital health at a system level.

09.00 – 09.25	Registration
09.25 – 09.30	Welcome and introductions Donna Henderson, Head of International Engagement, Scottish Government / WP10 Leader
09.30 - 11.00	Financial Framework and Funding Models for Digital Health Facilitated by Dr Dimitra Panteli, Lead on Innovation, European Health Observatory on Health Systems and Policies, Belgium We will explore the policy implications of various funding models and financial frameworks in implementing and scaling digital health technologies, including public-private partnerships, government funding, venture capital investments and reimbursement policies.
11.00 - 11.30	Coffee break
11.30 - 13.00	Assessing the Overall Impact of Integration Digital Health in Health and Care Systems Facilitated by Eric Sutherland, Senior Health Economist, Digital Health and AI Expert, OECD, France An integrated person-centred transformation of health requires a strong foundation of data and digital technologies. After the transformation is
