

The Future of Digital Health & Care in Scotland

23 JANUARY 2025 2-4 PM DIGITAL CAPABILITIES NETWORK

A network dedicated to digital transformation across Scottish Health, Social Work, Social Care & Housing

At this special meeting you are invited to share your thoughts on the changes needed to improve how digitally enabled services are delivered. Please read this [Project Brief](#). Members from the organisation commissioned to undertake the Digital Delivery Landscape Review will be in attendance. The summary report will be discussed by the Digital Capabilities Board and published on the Digital Health and Care website.

Special Meeting

Contribute to the Digital Delivery Landscape Review

- What would improve the strategic policy & direction of digital health & care?
- What changes need to be made to the organisational landscape structure ?
- What would improve the management of change ?
- What activities are best delivered at a national, regional and local level ?
- Identify the components of a system-wide, cross-boundary working environment.
